Cypress Fairbanks ISD

An electrocardiogram (ECG or EKG) screen can help identify young athletes who are at risk for Sudden Cardiac Arrest (SCA), a condition where death can result from an abrupt loss of heart function. An ECG screening may assist in diagnosing several different heart conditions that may contribute to SCA.

By signing below, I am either electing or declining an ECG screen provided by **CYPRESS FAIRBANKS** ISD for my child. By electing to receive an ECG screen, I acknowledge the limitations of an ECG screen and that SCA or other cardiac events may still occur, despite this screening. I further acknowledge that students with an abnormal ECG will be required to undergo further testing (e.g. an echo or ultrasound) and/or a medical consultation prior to being released to resume participation for **CYPRESS FAIRBANKS ISD** extracurricular activities. By my signature below, I hereby release and forever discharge, and waive, any and all claims against The Cody Stephens Go Big Or Go Home Memorial Foundation (GBOGH) and **CYPRESS FAIRBANKS ISD,** their employees, trustees, consultants, volunteers and contractors that relate to my election regarding and/or my child's participation in the ECG screening. I authorize medical personnel to review the ECG results, and interpret and use the same for diagnostic and aggregated statistical purposes in accordance with the Family Educational Rights and Privacy Act and Health Insurance Portability and Accountability Act of 1996.

☐ I DO hereby **CONSENT** to participation in the ECG screen on behalf of my minor child. **This a free screening Provided by CYPRESS FAIRBANKS ISD.**
